📍 Kyimyindaing Township, Yangon

## ABOUT ME

I'm a UI/UX and product designer with 4+ years of experience and specilization in mobile and web applications. I love to create a minimalist design of both mobile and web applications. I enjoy creating business card images, line art and graphic design images as well. I would like to talk with people, who is interested in design strategy, about creating user-centered design that intends for everyone easier to make accessible, understand and utilize.
